

Zoe Empowers Reporting Schedule and Content for Empowerment Group Partners

Name List and Group Picture - sent fourth month after first meeting

This report contains the name, age, and gender of each Zoe participant in the group(s) partnered with you. The name list will be updated at graduation to reflect any adoptions into the group or children who left. Also included with the report is general background information about how the Zoe Empowers model is implemented.

First Year Group Report and Video Profile - sent beginning of second year

The video profile report provides information on the challenges the children faced before Zoe and how their lives have changed through the example of a household from your specific group. Accompanying the video profile is a written report on the business and agricultural achievements of all group members, a summary of group projects, and an overview of the training and resources provided to members during their first year.

Second Year Video Profile - sent beginning of third year

This video profile is similar to the first year's report but captures the experience of a different household after having been in the Zoe empowerment program for two years.

Graduation Report - sent about four months after the end of the third year

This details the full impact of your support as an empowerment partner and includes:

- resources distributed
- the kinds and numbers of businesses started
- vocational training attendance
- status of the group projects
- number of houses/latrines repaired or built
- number of children reintegrated into school
- status of savings accounts or resources
- a summary of spiritual growth

Country Updates - sent every six months

These are country-specific reports which cover Zoe related news from the country in which your partnership is based. They provide additional insights to how the program improves the lives of the children and community.

Report timing subject to change due to adverse conditions in the country (weather, politics, etc.)
